Target v1 interaction (implemented in M11).

4 untriaged items — capture now, decide later

Call the dentist to reschedule Thursday's cleaning

Triage

Grab milk, eggs and bread before the weekend

Triage

Idea: a slower morning routine — read for 15 min before the phone

Triage

Ask Mom about the recipe for the trip next month

Triage

A capture stays a plain item — never a partial task — until it is triaged.

What gave you energy today? Shuffle prompt

Calm today. The dentist call is off my mind now that it's rescheduled, and the walk after dinner helped settle things. Mostly just grateful for a slower evening.
